INDEX

PROCEEDINGS OF THE AMERICAN CONCRETE INSTITUTE

VOLUME 41—1945

From JOURNAL OF THE AMERICAN CONCRETE INSTITUTE, Vol. 16, Sept. 1944, to June 1945 and Supplement, November 1945

This is an Index of:

Original contributions to the JOURNAL OF THE AMERICAN CONCRETE INSTITUTE—papers, reports, discussions by subject, title and author.

For the convenience of the reader who is referring to JOURNAL issues rather than to Bound Volumes (in which discussion is assembled following the paper discussed) there is a reference to JOURNAL issue in which discussion appeared. This reference to discussion is by supplementary page numbers. If the last page of a paper is 28, the first page of the discussion, published later, is 28 - 1.

Important subjects are classified and indexed under approximately 30 main headings each one appearing in its proper alphabetical order in bold face capital letters—as for instance, ARCHITECTURAL DESIGN and other subjects classified under this head, are indented. These samples do not apply fully to any single year's index.

In general, key words to important subjects appear in alphabetical order in addition to the general classification—as for instance "Admixtures" and "Aggregates" each referring to MATERIALS AND TESTS under which all allied references appear, indented. Authors' names and original titles of papers appear in bold face type in proper alphabetical sequence with the subjects, with references to their contributions.

Specific data on Beams are so indexed by reference to ENGINEERING DESIGN or TESTS OF MEMBERS AND COMPLETED STRUCTURES thus avoiding an oversight by the searcher of important allied data.

The complete title of each paper is indexed. This title is repeated in full following the name of the author in its proper alphabetical order. Numerous cross references to parts of the subject matter covered, do not always indicate the full scope. This may be found by looking up the item referred to under the name of the author or the title of the paper.

The readiest use may be made of this index by gaining some familiarity with the main classifications as follows:

ARCHITECTURAL DESIGN
BIBLIOGRAPHIES
BREAKWATERS—DOCKS AND SEA WALLS
BRIDGES
BUILDING CODES
BUILDINGS
BUILDING UNITS
CENTRAL MIXING
COMMITTEES
CONSTRUCTION—DETAILS, METHODS AND COSTS
CURING
DAMS
DURABILITY
ENGINEERING DESIGN
FAILURES
FIRES, FIRE TESTS AND FIREPROOFING
LAWS AND PROPERTIES
MASONRY UNITS
MATERIALS AND TESTS
MIXTURES
PAVEMENT
PERMEABILITY
PIPE
PRECAST UNITS
RAILWAY USES
RESEARCH
RESERVOIRS AND TANKS
SEWERS
SPECIFICATIONS
STRUCTURAL MEMBERS
SURFACES
TESTS AND FIELD CONTROL
TESTS OF MEMBERS AND COMPLETED STRUCTURES
VIBRATION
WATER WORKS

A

Abeles, Paul William—Fully and partly prestressed reinforced concrete..... 181
—Errata—Disc. (Suppl. '45) 216–1
—Disc. Effect of type of bar on width of cracks in reinforced concrete subjected to tension (Suppl. '45)..... 304–1
Abrams, Duff A.—Disc. Cracking and temperature control of Mass concrete. 348–1
—Disc. Proposed test procedure to determine relative bond value of reinforcing bars. Report Com. 208 (Suppl. '45)..... 292–1
ACI Standards, Current..... 557
Admixtures for concrete—A report by ACI committee 212. Hornibrook..... 73
—Disc. Kaufman, MacPherson, Feld, Schmid, Blanks, Thorson, Hornibrook (Suppl. '45)..... 88–1
Alkalies—Effect on durability. Tremper..... 89
Alkaline solutions—Reactivity of aggregate constituents in. Bean and Tregoning..... 37
Asbestos-cement siding—Durability of. (JPP 41-155). Hutchcroft..... 55
ASTM Standards—Concrete curing methods 349

B

Bases—For heavy machinery—(JPP 41-164) Laidlow, Macklin, Rowland and Hanson... 709
Bean, Leonard—(with J. J. Tregoning) Reactivity of aggregate constituents in alkaline solutions..... 37
Bertin, R. L. (with Di Stasio and Van Buren) —Slabs supported on four sides..... 537

BIBLIOGRAPHIES

Admixtures—Committee 212 Report. Hornibrook..... 73
Alkali—Aggregate reaction. Bean and Tregoning..... 37
Capping materials for test specimens. Kennedy..... 117
Durability—Alkalies in portland cement—Effect of. Tremper..... 89
Dynamic testing of concrete. Pickett..... 473
Flexural strength and modulus of elasticity —Field determination. Long, Kurtz, and Sandenaw..... 217
Mass concrete—Cracking and temperature control. Rawhouser..... 305
Mixes—Design of—Recommended practice —Committee 613 Report. Blanks and Price..... 651
Prestressed reinforced concrete. Abeles.... 181
Strength—28-day—estimating from earlier strengths. Creskoff..... 493
Bigler, W. D.—Preparation of technical papers..... 1
—Disc. A practical procedure for rigid frame design (Suppl. '45)..... 472–1
Billner, K. P. Disc. Fully and partly prestressed reinforced concrete. (Suppl. '45)..... 216–1
Blanks, Robert F.—Recommended practice for the design of concrete mixes (ACI 613-44) —Committee 613 Report..... 651
—Disc. Admixtures for Concrete—Report Com. 212. (Suppl. '45)..... 88–1
Bond stress—Proposed test procedure. Report of Committee 208. Gilkey..... 273
Bonding Efficiency—Effect on cracks in reinforced concrete. Watstein and Seese..... 293
Bonding new topping to old concrete. (JPP 41-166) Hornibrook and Green..... 516
Brewer, H. E.—Disc. A working hypothesis for further studies of frost resistance of concrete (Suppl. '45)... 272–1
Briny air—Cause of deterioration—Precautions against. (JPP 41-161)..... 133
Building regulations for reinforced concrete (ACI 318-41) —Committee 318. Stephens and Zipprodt. 559

BUILDINGS

Regulations—Suggested changes—Slabs supported on four sides. Bertin, Di Stasio, and Van Buren..... 537
Reinforced concrete—Design and construction—Regulations—Committee 318 Report. Stephens and Zipprodt..... 559

BUILDING UNITS

Cast stone, specifications for—Committee 704 report (ACI 704-44). Walker..... 701

C

Capping materials—Investigation of. Kennedy..... 117
Cement paint for steel water tanks. (JPP 41-158) Young and Klock..... 129
Cervin, D. R.—A practical procedure for rigid frame design..... 453
—Disc. (Suppl. '45)..... 472–1
Coatings—Effectiveness in reducing penetration of kerosene. Hornibrook..... 13
Coff, L.—Disc. Concrete operations in the concrete ship Program. (Suppl. '45)..... 180–1
—Disc. Fully and partly prestressed reinforced concrete. (Suppl. '45).... 216–1
Collins, A. R.—Disc. A Working hypothesis for further studies of frost resistance of concrete..... 272–1
Color variation in concrete products. (JPP 41-157). Kelly..... 59
Committee 208 Report—Proposed test procedure to determine relative bond value of reinforcing bars. Gilkey..... 273
Committee 212 Report—Admixtures for concrete. Hornibrook..... 73
—Disc. Feld, Schmid, Kaufman, MacPherson, Hornibrook, Blanks, Thorson (Suppl. '45) 88–1

Committee 318 Report—Building regulations for reinforced concrete. (ACI 318-41) Stephens and Zipprodt..... 559
Committee 319 Report—Recommended practice for use of metal supports for reinforcement—(ACI 319-42). Zabriskie..... 621
Committee 613 Report—Recommended practice for the design of concrete mixes. (ACI 613-44). Blanks and Price..... 651
Committee 614 Report—Recommended practice for measuring, mixing and placing concrete (ACI 614-42). Tuthill..... 625
Committee 617 Report—Specifications for concrete pavements and bases. (ACI 617-44). Clemmer..... 673
Committee 704 Report—Specifications for cast stone (ACI 704-44). Walker..... 704
Concrete curing methods. ASTM Standards..... 349
Concrete in New Caledonia. (JPP 41-165) Hansen..... 513
Concrete operations in the concrete ship program. Tuthill..... 137
—Disc. Coff, Tuthill (Suppl. '45)..... 180–1
Concrete tanks for storage of wine. (JPP 41-160)..... 133

CONSTRUCTION—DETAILS, METHODS AND COSTS

Buildings—Regulations for reinforced concrete—Committee 318 Report. Stephens and Zipprodt..... 559
Irrigation pipe—Canal laterals. (JPP 41-167). Jones..... 705
Mass concrete—control of cracking and temperature control. Rawhouser..... 305
Measuring, mixing and placing concrete—Recommended practice—Committee 614 Report. Tuthill..... 625
Metal supports for reinforcement. Committee 319 Report. Zabriskie..... 621
Pavements and bases—Specifications for—Committee 617 Report. Clemmer..... 673
Repairs—Frozen concrete. (JPP 41-156) Wheeler..... 56
Sheeting slabs—Precast. Feld..... 441
Ship program. Tuthill..... 137
Surfacing—bonding new topping to old concrete. (JPP 41-166). Hornibrook and Green..... 516
Cracking and temperature control of mass concrete. Rawhouser..... 305
—Disc. Abrams, Rawhawser. (Suppl. '45)..... 348–1
Cracks—width of—effect of type of reinforcement bars. Watstein and Seese..... 293
Creskoff, Jacob J.—Estimating 28-day strength of concrete from earlier strengths—Including the probable error of the estimate. 493
—Disc. (Suppl. '45)..... 512–1
Crum, R. W.—Presidential address to American Concrete Institute..... 437

CURING

ASTM Standards—Methods..... 349
Methods—Effect on strength—Concrete containing haydite. Hanson and Neelands 105

D

Deformations—Effect of type of bar. Watstein and Seese..... 293
Dempsey, John G.—Mix for pre-stressed concrete tanks using coral and porous limestone. (JPP 41-154)..... 53
Di Stasio, Joseph (with Bertin and Van Buren)—Slabs supported on four sides..... 537
Dodge, Alexander—Disc. An instrument and a technic for field determination of the modulus of elasticity and flexural strength, of concrete (Pavements.) (Suppl. '45)..... 232–1

DURABILITY

Alkalies in portland cement—Effect of. Tremper..... 89
Deterioration—Effect of exposure to briny air. (JPP 41-161)..... 133
Durability of asbestos—Cement siding. (JPP 41-155). Hutchcroft..... 55
Dynamic testing of pavement. Pickett.... 473

E

Effect of alkalies in portland cement on the durability of concrete. Tremper..... 89
Effect of curing conditions on compressive, tensile and flexural strength of concrete containing haydite aggregate. Hanson and Neelands..... 105
Effect of type of bar on width of cracks in reinforced concrete subjected to tension Watstein and Seese..... 293
—Disc. Mercadante, Abeles, Watsein and Seese. (Suppl. '45)..... 304–1
The Effectiveness of various treatments and coatings for concrete in reducing the penetration of kerosene. Hornibrook 13

ENGINEERING DESIGN

Buildings—Regulations for reinforced concrete—Committee 318 Report. Stephens and Zipprodt..... 559
Prestressed beam—Fully and partly prestressed. Abeles..... 181
Rigid frame—practical procedure. Cervin.. 453
Sheeting slabs—precast. Feld..... 441
Slabs supported on four sides. Bertin, Di Stasio and Van Buren..... 537
Slabs—Two-way reinforced. Rogers..... 21
Estimating 28-day strength of concrete from earlier strengths—Including the probable error of the estimate. Creskoff. 493
—Disc. Wing, Creskoff. (Suppl. '45)... 512–1

F

Feld, Jacob—Precast concrete pit sheeting... 441
—Disc. Admixtures for Concrete, Report of Com. 212 (Suppl. '45)..... 88–1

Ferguson, Phil. M.—Disc. A practical procedure for rigid frame design. (Suppl. '45) 472–1
Fitzpatrick, F. L.—Flexible joints for concrete pipes and troughs. (JPP 41-149) 357
Flexible joints for concrete pipes and troughs. (JPP 41-149). Fitzpatrick 357
Flexural Strength—Field determination of. Long, Kurtz, and Sandenaw 217
Flodin, H. L.—Setting heavy machinery on concrete bases. (JPP 41-164) 360
Frost resistance—Mechanism of frost action. Powers 245
Frozen concrete cheaply repaired. (JPP 41-156). Wheeler 56
Fully and partly prestressed reinforced concrete. Abeles 181
—Errata—Disc. Coff, Billner, Hajnol-Konyi, Abeles (Suppl. '45) 216–1

G

Gilkey, H. J.—Proposed test procedure to determine relative bond value of reinforcing bars. Report Committee 208 273
—Disc. (Suppl. '45) 292–1
Gonnerman, H. F.—Vibrating concrete in test cylinder molds. (JPP 41-162) 134
Green, Nathan—Bonding new topping to old concrete surfaces. (JPP 41-166) 516

H

Hajnal-Konyi, H.—Disc. Fully and partly prestressed reinforced concrete. (Suppl. '45) 216–1
Hansen, Capt. K. K.—Concrete in New Caledonia. (JPP 41-165) 513
Hanson, E. B. Jr. (with Neelands)—Effect of curing conditions on compressive, tensile and flexural strength of concrete containing haydite aggregate 105
Hanson, L. C.—Setting heavy machinery on concrete bases. (JPP 41-164) 713
Haydite—Effect of curing conditions on strength of concrete. Hanson and Neelands. 105
Hornibrook, F. B.—Effectiveness of various treatments and coatings for concrete in reducing the penetration of kerosene 13
—Admixtures for concrete—Report of Com. 212 73
—Disc. (Suppl. '45) 88–1
—Bonding new topping to old concrete surfaces. (JPP. 41-166) 516
Hutchcroft, C. R.—Durability of asbestos-cement siding. (JPP 41-155) 55

I

Instrument and a technic for field determination of the modulus of elasticity, and flexural strength of concrete, An (Pavements). Long, Kurtz, and Sandenaw 217
—Disc. Morton, Dodge (Suppl. '45) 232–1

J

Jones, Paul A.—Precast concrete irrigation pipe jacked under railroad tracks. (JPP 41-167) 705

K

Kaufman, R. R.—Disc. Admixtures for concrete—Report of Com. 212. (Suppl. '45) 88–1
Kelly, J. W.—Color variation in concrete products. (JPP 41-157) 59
Kennedy, Thomas B.—A limited investigation of capping materials for concrete test specimens 117
Keying or doweling concrete silo walls to foundations—Other Silo Details. (JPP 41-163) Paxton and Miller 358
Klock, M. B.—(with Young) Cement paint for steel water tanks. (JPP 41-158) 129
Kurtz, Henry J. (with Long, Sandenaw)—An instrument and a technic for field determination of the modulus of elasticity, and flexural strength of concrete (Pavements) ... 217

L

Laidlow, Douglas S.—Setting heavy machinery on concrete bases. (JPP 41-164) 710

LAWS AND PROPERTIES

Bond—Relative value of reinforcing bars. Report of Committee 208. Gilkey 273
Durability—Asbestos-cement siding. (JPP 41-155). Hutchcroft 55
—Effect of alkalies in portland cement. Tremper 89
Frost resistance—Working hypothesis. Powers 245
Modulus of elasticity and flexural strength—field determination. Long, Kurtz and Sandenaw 217
Resistance to alkaline solutions. Bean and Tregoning 37
Shrinkage—long-time. (JPP 41-159) Wheeler) 132
Strength—Effect of curing conditions on. Hanson and Neelands 105
—28-day—estimating from earlier strengths. Creskoff 493
Least squares—method of estimating strength. Creskoff 493
Lewis, Ralph—Setting heavy machinery on concrete bases. (JPP 41-164) 360
Light weight sheeting slabs. Feld 441
Limited investigation of capping materials for concrete test specimens. Kennedy 117
Long, Bartlett G. (with Kurtz and Sandenaw) An Instrument and a technic for field determination of the modulus of elasticity, and flexural strength of concrete (pavements) ... 217
Long time shrinkage of concrete. (JPP 41-159) Wheeler 132

M

Machinery bases—Setting heavy. (JPP 41-164). Tyler, Lewis and Flodin..... 360
Macklin, Charles—Setting heavy machinery on concrete bases. (JPP 41-164)..... 711
MacPherson, Donald R.—Disc. Admixtures for Concrete—Report Com. 212. (Suppl. '45)..... 88–1

MASONRY UNITS

Blocks—Color variation in—Effect of moisture. (JPP 41-157). Kelly..... 59
Mass concrete—Cracking and temperature control. Rawhouser..... 305

MATERIALS AND TESTS

Admixtures—Committee 212, report. Hornibrook..... 73
Aggregate—Coral and porous limestone—in pre-stressed tanks. (JPP 41-154) Dempsey 53
—Haydite—Effect of curing conditions. Hanson and Neelands..... 105
—Reactivity in alkaline solutions. Bean and Tregoning..... 37
—Volcanic—Effect of Alkalies. Tremper... 89
Cast stone, specifications for (ACI 704-44) Committee 704 report. Walker..... 701
Specimens—Capping—Investigation of. Kennedy..... 117
—Vibrating test cylinders. (JPP 41-162) Gonnerman..... 134
Mather, Bryant. Disc. Reactivity of aggregate constituents in alkaline solutions. (Suppl. '45)..... 52–1
McHenry, Douglas—Disc. A working hypothesis for further studies of frost resistance of concrete. (Suppl. '45).. 272–1
MacPhail, J. B., Disc.—Two-way reinforced concrete slabs. (Suppl. '45). 36–1
Mercadante, J.—Disc. Effect of type of bar on width of crack in reinforced concrete subjected to tension. (Suppl. '45)..... 304–1
Miller, D. G.—Keying or doweling concrete silo walls to foundations—Other silo details. (JPP 41-163)..... 358
Mix for prestressed concrete tanks using coral and porous limestone. (JPP 41-154). Dempsey..... 53

MIXTURES

Design—Recommended practice—Committee 613 Report. Blanks and Price..... 651
Modulus of elasticity—field determination Long, Kurtz, Sandenaw..... 217
Moment distribution—Simplified rigid frame design. Cervin..... 453
Mortar gun—Use in ship program. Tuthill.. 137
Morton, Paul L.—Disc. An instrument and a technic for field determination of the modulus of elasticity and flexural strength, of concrete (Pavement). (Suppl. '45)..... 232–1

N

Neelands, W. T. (with Hanson)—The effect of curing conditions on compressive, tensile and flexural strength of concrete containing haydite aggregate..... 105
New Caledonia—concrete in—multiple uses. (JPP 41-165). Hansen..... 513

P

Paint—Cement for water tanks. (JPP 41-158). Young and Klock..... 129

PAVEMENT

Slabs on elastic subgrade—Dynamic testing. Pickett..... 473
Specifications for pavements and bases—Committee 617 Report. Clemmer..... 673
Tests—Flexural strength and modulus of elasticity. Long, Kurtz and Sandenaw... 217
Paxton, K. W.—Keying or doweling concrete silo walls to foundations—other silo details. (JPP 41-163)..... 358
Penetration of kerosene—Effectiveness of treatments and coatings. Hornibrook..... 13
Pickett, Gerald—Dynamic testing of pavements..... 473
Pipes—flexible joints for. (JPP 41-149). Fitzpatrick..... 357
Powers, T. C.—A working hypothesis for further studies of frost resistance of concrete..... 245
—Disc. (Suppl. '45)..... 272–1
Practical procedure for rigid frame design. Cervin..... 453
—Disc. Bigler, Ferguson and Cervin (Suppl. '45)..... 472–1
Precast concrete irrigation pipe jacked under railroad tracks. (JPP 41-167). Jones..... 705

PRECAST UNITS

Cast stone, specifications for (ACI 704-44) Walker..... 701
Pipe—Irrigation—Jacked under railroad tracks. (JPP 41-167). Jones..... 705
Sheeting—pit. Feld..... 441
Precautions against deterioration of concrete exposed to briny air. (JPP 41-161) 133
Preparation of Technical Papers. Bigler... 1
—Disc. Spiker (Suppl. '45)..... 12–1
Presidential address to American Concrete Institute. Crum..... 437
Prestressed reinforced concrete—fully and partly prestressed. Abeles..... 181
Price, Walter H.—Recommended practice for the design of concrete mixes (ACI 613-44)—Committee 613 Report..... 651
Proposed test procedure to determine relative bond value of reinforcing bars. Report Committee 208, Gilkey..... 273
—Disc. Abrams, Gilkey. (Suppl. '45).. 292–1

R

Rawhouser, Clarence—Cracking and temperature control of mass concrete..... 305
—Disc (Suppl. '45)..... 348–1
Reactivity of aggregate constituents in alkaline solutions. Bean and Tregoning.. 37
—Disc. Mather (Suppl. '45)..... 52–1
Recommended practice for the design of concrete mixes (ACI 613-44)—Committee 613 Report. Blanks and Price..... 651
Recommended practice for measuring, mixing and placing concrete (ACI 614-42)—Committee 614 Report. Tuthill..... 625
Recommended practice for use of metal supports for reinforcement—(ACI 319-42)—Committee 319 Report. Zabriskie.... 621

RESERVOIRS AND TANKS

Metal—Cement paint for. (JPP 41-158) Young and Klock..... 129
Oil storage—Linings—Treatment, and coatings. Hornibrook..... 13
Pre-stressed tanks—Coral and porous limestone. (JPP 41-154). Dempsey..... 53
Silos—Keying or doweling walls to foundations. (JPP 41-163)..... 358
Wine storage. (JPP 41-160)..... 133
Rigid frame design—practical procedure. Cervin..... 453
Rogers, Paul—Two-way reinforced concrete slabs..... 21
—Disc. (Suppl. '45)..... 36–1
Rowland, W.—Setting heavy machinery on concrete bases. (JPP 41-164)..... 713

S

Sandenaw, Thomas A. (with Long and Kurtz)—An instrument and a technic for field determination of the modulus of elasticity, and flexural strength of concrete (Pavement)..... 217
Schmid, Emil—Disc. Admixtures for Concrete. Report Com. 212. (Suppl. '45)..... 88–1
Seese, Norman A. (with Watstein)—Effect of type of bar on width of cracks in reinforced concrete subjected to tension..... 293
Setting heavy machinery on concrete bases. Laidlow, Macklin, Rowland and Hanson. (JPP 41-164)..... 709
Setting heavy machinery on concrete bases. (JPP 41-164). Tyler, Lewis and Flodin..... 360
Sheeting—pit—underpinning. Feld..... 441
Ship program—Concrete. Tuthill..... 137
Shrinkage—Long-time. (JPP 41-159) Wheeler..... 132
Silo Walls—Keying or doweling to foundations. (JPP 41-163)..... 358
Slabs supported on four sides—Suggested changes in ACI Building Regulations. Bertin, Di Stasio and Van Buren..... 537
—Disc. Spiker (Suppl. '45)..... 555–1
—**Two-way reinforced**—Simplified design. Rogers..... 21

SPECIFICATIONS

Building regulations for reinforced concrete —Committee 318 Report. Stephens and Zipprodt..... 559
—Slabs supported on four sides. Bertin, Di Stasio, Van Buren..... 537
Cast stone—Committee 704 report (ACI 704-44) Walker..... 701
Curing—ASTM Standards..... 349
Measuring, mixing and placing concrete (ACI 614-42)—Committee 614 Report. Tuthill..... 625
Metal supports for reinforcement—Recommended practice—Committee 319 report. Zabriskie..... 621
Pavements and bases—ACI Standard. Committee 617 Report. Clemmer..... 673
Standards—Current 1945 ACI..... 557
Specifications for cast stone (ACI 704-44)—Committee 704 report. Walker..... 701
—**for concrete pavements and bases** ACI 617-44)—Committee 617 Report. Clemmer..... 673
Spiker, William C.—Disc.—Preparation of Technical Papers. (Suppl. '45)..... 12–1
—Slabs supported on four sides—(Suppl. '45)..... 555–1
Standards—Current 1945 ACI..... 557
Stephens, A. W.—Building regulations for reinforced concrete (ACI 318-41)—Committee 318 Report..... 559
Stretching—Pre-stretching and post-stretching—Prestressed reinforced concrete. Abeles 181

SURFACES

Topping—Bonding to old surface. (JPP 41-166). Hornibrook and Green..... 516
Treatment—Coatings for oil storage. Hornibrook..... 13

T

Tankers—Concrete ship program. Tuthill... 137
Technical papers—Preparation of. Bigler... 1
Temperature control—mass concrete. Rawhouser..... 305
Terzaghi, Ruth D.—Disc. A working hypothesis for further studies of frost resistance of concrete. (Suppl. '45)..... 272–1

TESTS OF MEMBERS AND COMPLETED STRUCTURES

Beams—Prestressed—Fully and partly. Abeles..... 181
Pavement slabs—Dynamic testing. Pickett. 473
Thermal stress—mass concrete. Rawhouser. 305
Thorson, E. W.—Disc. Admixtures for Concrete. Report Com. 212. Suppl. '45)..... 88–1
Tregoning, J. J. (with Bean)—Reactivity of aggregate constituents in alkaline solutions.. 37

Tremper, Bailey—Effect of alkalies in portland cement on the durability of concrete.... 89
Troughs—flexible joints for. (JPP 41-149) Fitzpatrick..... 357
Tuthill, Lewis H.—Concrete operations in the concrete ship program..... 137
—Disc. (Suppl. '45)..... 180–1
Tuthill, Lewis H.—Recommended practice for measuring, mixing and placing concrete (ACI 614-42) Commiteee 614 Report..... 625
Two-way reinforced concrete slabs. Rogers..... 21
—Disc. MacPhail, Rogers (Suppl. '45) 36–1
Tyler, I. L.—Setting heavy machinery on crete bases. (JPP 41-164)..... 360

V

Van Buren, M. P. (with Bertin and Di Stasio —Slabs supported on four sides..... 537
Vibrating concrete in test cylinder molds (JPP 41-162). Gonnerman..... 134
Vibration—in ship construction program. Tuthill..... 137
—sustained—pavement on elastic subgrade. Pickett..... 473
—Treatment of test cylinder molds. (JPP 41-162). Gonnerman..... 134

W

Walker, C. G.—Specification for cast stone (ACI 704-44) Committee 704 report..... 701
Watstein, David (with Seese)—Effect of type of bar on width of cracks in reinforced concrete subjected to tension..... 293
Wheeler, Walter H.—Frozen concrete cheaply repaired. (JPP 41-156)..... 56
Wheeler, Walter H.—Long time shrinkage of concrete. (JPP 41-159)..... 132
Wing, S. P.—Disc. Estimating 28-day strength of concrete from earlier strengths—including the probable error of the estimate. (Suppl. '45).... 512–1
Working hypothesis for further studies of frost resistance of concrete, A. Powers... 245
—Disc. Terzaghi, McHenry & Brewer, Collins, Powers. (Suppl. '45)..... 272–1

Y

Young, R. B.—Cement paint for steel water tanks. (JPP 41-158)..... 129
Young's modulus—Dynamic determination of. Pickett..... 473

Z

Zabriskie, William F.—Recommended practice for use of metal supports for reinforcement—(ACI 319-42)—Committee 319 Report..... 621
Zipprodt, R. R.—Building regulations for reinforced concrete (ACI 318-41)—Committee 318 Report..... 559

INDEX

Current Reviews

From JOURNAL OF THE AMERICAN CONCRETE INSTITUTE, Vol. 16, Sept. 1944 to June 1945

For information as to indexing methods see PROCEEDINGS *Index, p. 729*

A

Actual and estimated impact resistance of some reinforced-concrete units failing in bending. (Review) Simms. *Journal of the Institution of Civil Engineers*..... 724
Airbase requires varied paving operations. (Review) Whitten. *Engineering News-Record*..... 368
Aircraft factory in France has concrete arch roof. (Review) Beskin. *Civil Engineering* 234
Aircraft hangars and terminal buildings of reinforced concrete. (Review) Whitney. *Aeronautical Engineering Review*..... 235
Air-entraining cements—Commercial vinsol resin. (Review) *Highway Research Abstracts*..... 371
—Use of (Review) Farmer and Lindsay. *Engineering News-Record*..... 370
Airfield runways—Concrete overlays for. (Review) *Engineering News-Record*..... 717
Alkali-aggregate reaction—Deterioration due to. (Review) Blanks and Meissner. *Am. Soc. C. E. Proceedings*..... 722
Almost $18 billion spent on roads and streets in decade. (Review) *Highway Highlights*.. 367
Anchorage for reinforcement in concrete. (Review) *Technical News Bulletin*..... 369
Arches—Continuity studies. (Review) Bordier. *LeGenie Civil*..... 64
Arch roof—aircraft factory design. (Review) Beskin. *Civil Engineering*..... 234
A. S. T. M. standards, 1944 book of. (Review) *American Society for Testing Materials*..... 525

B

Beams—Nomograph for computing sections. (Review) Jauson. *LeGenie Civil*..... 62
Bending of square footings. (Review) Grotkamp *Highway Research Abstracts*..... 66
Bleeding of portland cement paste, mortar and concrete. (Review) *Ind. Eng. Chem.*..... 527
Bonneville dam concrete after six years. (Review) Galbraith and Clark. *Engineering News-Record*..... 721

BRIDGES

Arch—Multiple span. (Review) Fairhurst. *Concrete and Constructional Engineering*.. 521
Bridge foundations. (Review) Fairhurst. *Concrete and Constructional Engineering*... 521
Girder—multiple span—Inverbervie. (Review) Fairhurst. *Concrete and Constructional Engineering*..... 521
Railroad—Precast slab. (Review) Eidhelgrun. *Concrete and Constructional Engineering*..... 526
Rigid frame—Curved soffit decks. (Review) Spotts. *Engineering News-Record*..... 233
Twin arches—Use simplifies design. (Review) *Engineering News-Record*..... 63
Building codes—South American. (Review) Boase. *Engineering News-Record*..... 722

BUILDINGS

Aircraft hangars and terminals. (Review) Whitney. *Aeronautical Engineering Review* 235
Design—South American. (Review) Boase *Engineering News-Record*..... 365
Engine test cell. (Review) *Engineering News-Record*..... 64
Houses—experience in England. (Review) *Concrete and Constructional Engineering*... 67
—Lightweight. (Review) *Concrete and Constructional Engineering*..... 522
Post - war structures — design. (Review) *Ministry of Works, London*..... 524
Temporary—substantial construction of masonry units. (Review) Creighton. *Engineering News-Record*..... 233

C

Caissons—Normandy harbor. (Review) *Concrete and Constructional Engineering*..... 522
Calcium chloride—Effect of, on the water requirements, specific weights and compressive strengths of concrete made with plain and treated cements. (Review) Vollmer. *Highway Research Board*..... 242

Thermosetting synthetic resin paints for concrete pavement markings. (Review) Slate. *Highway Research Board Abstracts*..... 532
Tilted building—Righting. (Review) *Concrete and Constructional Engineering*..... 62
Torque—Plastic materials. (Review) Marshall *Concrete and Constructional Engineering*..... 61
—Torsional resistance of plastic materials. (Review) Marshall. *Concrete and Constructional Engineering*..... 61
Torsional resistance of plastic materials with special reference to concrete. (Review) Marshall. *Concrete and Constructional Engineering*..... 61
Transverse joints in the design of heavy duty concrete pavement. (Review) Giffin. *Highway Research Board*..... 241
Tunnel roof—railroad—rebuilt from shaft. (Review) *Engineering News-Record*..... 718

U

Use of all—in aggregates in concrete. (Review) Collins. *Concrete and Constructional Engineering*..... 718
Use of bituminous materials as a corrective measure for pumping concrete pavements. (Review) Allen and Marshall. *Highway Research Board Abstracts*..... 535
—pre-cast pre-stressed concrete beams in bridge deck construction. (Review) Paul. *Highway Research Board Abstracts*..... 66
—twin bridges simplifies design. (Review) *Engineering News-Record*..... 63

V

Vibration—Runway construction. (Review) Rule and Bate. *Engineering News-Record*... 367
Vinsol—resin cements—Commercial. (Review) *Highway Research Board*..... 371

W

Wind Tunnel—precise curves in. (Review). *Engineering News-Record*..... 234
